🎓 EDUCATION

Bachelor of Engineering

Acharya Institute of Technology

2022 – 2025 | Bengaluru

🧠 SKILLS

HTML | CSS | JavaScript | Java | SQL

PLSQL | React JS | DSA |

📜 CERTIFICATES

- ♦ Introduction to Web Development with HTML, CSS, JavaScript ☑
- ♦ Developing Front-End Apps with React ☑
- ♦ Selenium WebDriver with Python ☑

👤 PROFILE

Enthusiastic and detail-oriented software developer with hands-on project experience and a strong willingness to learn. Seeking an opportunity to begin my career in a dynamic organization and contribute to meaningful software solutions while continuing to grow professionally.

💼 CARRIER OBJECT

Dedicated and quick-learning aspiring full-stack developer with internship experience in web development at Masai School and Java full-stack training from JSpiders. Looking to apply my skills and grow in a dynamic software development role.

📁 PROJECTS

PETSHOP MANAGEMENT SYSTEM

Developed a web-based Pet Shop Management System using HTML, CSS, MySQL, and VS Code. The system manages pet details, customer records, and basic billing through simple CRUD operations. I created the user interface, designed the database, and organized the project flow to ensure smooth and efficient functionality.

E-COMMERCE WEBSITE

Designed and developed a responsive e-commerce website with user-friendly interfaces for browsing and purchasing products. Implemented features such as dynamic menu display, category-based item browsing, and real-time cart updates to improve the overall shopping experience.

FAKE-NEWS-DETECTION

Developed a fake news detection system using Python and NLP techniques. Implemented text preprocessing, feature extraction (TF-IDF), and machine learning models to classify news as real or fake. This project strengthened my skills in ML, text analysis, and model evaluation.
