M Shantha

PROFESSIONAL SUMMARY

Motivated and detail-oriented recent graduate with foundational knowledge in HTML and CSS, eager to apply web design skills to real-world projects. Passionate about creating visually appealing and user-friendly websites. Excited to contribute creativity and technical expertise to a growing team.

WORK EXPERIENCE

Masai school
Frond-end developer
October 2024 – March 2025

Job responsibilities:

- Collaborated to develop responsive and interactive web applications using HTML, CSS, and JavaScript, emphasizing user experience and accessibility.
- Gained experience in working with collaborative teams, optimizing frontend performance, and integrating design principles for modern web applications.

PROJECTS

1. Petshop Management System
JavaScript | HTML | CSS | PHP
- Developed a responsive user interface using HTML, CSS, and JavaScript and PHP.
- Implemented features like inventory management and category-wise search, enhancing the system's functionality.

2. College Result Analysis
HTML | JSP | Mysql
- Developed a responsive, user-friendly interface using HTML and JSP, enhancing accessibility for administrators and students.

3. Automation Testing of Facebook Webpage Using Selenium
Python | Selenium
- Developed Selenium test scripts to automate key functionalities of the Facebook webpage, ensuring seamless functionality.

4. E-Commerce Website
HTML |CSS |JavaScript
- Designed and developed a responsive e-commerce website with intuitive user interfaces for browsing and purchasing.
- Implemented features like dynamic menu display, real-time cart updates, and category-based item browsing to streamline the ordering process.
